INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with 37 C.F.R. 1.98, I am submitting a completed "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" (*Form PTO/SB/08A*) with patents and/or publications as delineated therein attached.

DE 44 05 203 A1 discloses that material such as glass, plastic, semiconductor material, wood or ceramic is surface worked using a laser beam of wavelength 1.4-3.0 μ m.

DE 38 16 408 A1 discloses that, in the case of a dishwashing machine, individual spray elements (5) which can be connected to a circulating pump (26) via a changeover device (22) are situated within a washing container (1). In order to achieve, with minimized water consumption, adaptation of the rinsing action exerted on the dishes to be cleaned, for example as a function of the loading, the spray elements (5) can be connected in free succession to the circulating pump (26) via the changeover device (22).

EP 0 988 824 A1 discloses a dishwasher has a spray arm (3) with a spray nozzle (5) arranged on top. A device is provided for adjusting the hollow spray stream.

If no translation of pertinent portions of any foreign language patents or publications mentioned within the "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" is included with the aforementioned copies of those applications, patents and/or publications,

Attorney Docket No. 2002P00939WOUS

it is because no existing translation is readily available to the Applicants. As per the Notice in 1273 OG 55 (August 5, 2003) no copies of any above-mentioned US patents and US patent application publications are submitted for this application which was filed after June 30, 2003.

Respectfully submitted

Russell W. Warnock
